

SafetySmart

SafetySmart Award

We would like to congratulate the following schools for their hard work in achieving the SafetySmart Award:

- Springbank Primary School
- Beardall Fields Primary and Nursery School

Both these schools have demonstrated a commitment to health and safety. It was also pleasing that this process was embraced by the whole school team who contributed to improve safety standards within their specific roles.

At present we have 19 schools within Nottinghamshire who have achieved the award. If you are interested in participating in this scheme or would like more information then please contact our team on 01158 040 333 or hands@nottsc.gov.uk. Further information can be found at: [Health and Safety > SafetySmart Award](#)
